

Masterplat Freezer

Semi-Automatic Stretch Wrapper

- Freezer wrapping turntable for use with low temperature environments (-22°F / -30°C)
- Machine total inox and epoxy painting
- "Oil" resistant to temperatures (-22°F / -30°C)
- "Cables" silicone suitable for low temperatures that ensure long life

Performance

- **Production Speed:** 30 LPH
- **Turntable Weight Capacity:** 4400 lbs. (5500 opt.)
- **Max Load Dimensions (LxWxH):** 40"L x 48"W x 110"H

Wrapping

- **R-connect ready**
- **Pre-stretching:** Fixed 250%
- **Load Height Sensing:** Automatic height detection via infrared photocell for light/dark loads

Operator Interface

- **Control Panel:** LED Display and JOG dial programmable selector
- **Wrapping Menus:** 2 fixed menus and 3 programmable menus
- **Wrap Counters:** Top and bottom separately, Top Sheet Cycle
- **Turntable Speed:** 5-12 RPM

Turntable Design

- **Turntable Size:** 65" standard (71" optional)
- **Turntable Top Thickness:** 3/8" think diamond plated steel
- **Turntable Support:** 28/ea. 1-5/8" UHMW covered support casters
- **Turntable Drive:** 1 HP VAC, Heavy duty chain and sprocket drive

Film Delivery

- **Film Carriage:** 20" standard, 30" optional
- **Banding:** Programmable up to 20 levels

Safety

- **NEMA 13, Anti-fall device**
- **Safety and Electrical Compliance:** CE compliant, UL, cUL ready

Requirements

- **Electrical:** 120V, 20A, 60 Hz, 1 Ph
- **Warranty:** 3 Years
