PACKAGE WITH CONFIDENCE

JETSTAMP 1025

The newest addition to the Reiner inkjet lineup is packed with power and precision. The AMI/Reiner JetStamp 1025 is the most flexible and function packed handheld printer ever brought to market. With the click of a button, the 1025 can print on absorbent and non-absorbent surfaces with 1D & 2D barcodes, graphics, logos, & alphanumerics - all in half a second. This unit is perfect for supply chain, logistics, cannabis, food & beverage, lumber, metal, contract packaging and countless other industry applications. Compliance has never been easier with this zero-maintenance cartridge based system and Reiner's industry unique self-traversing printhead. Printing on a variety of sizes and shapes is effortless, add in single and multi-line imprints, ERP/Database connectivity, and up to a 1" print height and you've become unstoppable. Versatility and German engineering at it's finest. Accelerate your production process with the 1025, you'll wonder how your company ever functioned without it.
